From the Editor:

There is a change in the air from cold winter winds to a warmer spring breeze. This is my favorite time of year, everything is new again. Well, of course I am not a fan of the April showers, because as far as I am concerned it may bring may flowers but it also tends to leave around a lot of mud puddles. If you are like me and have one or more, many more in my case, four footed little furry friends, I am not a fan of the spring rain! I have more paw prints running through my house and across my floors and on my pants than I can begin to describe to you. A friend recently talked me into keeping a cute little white puppy. He is now brown and is soon going to be sent to the friends house to live!

With change in the air you will notice some Changes to your newsletter. That is because as you may have heard it now has a new editor. That would be me. So if you have any thoughts or any great ideas on what you would like to see in your newsletter, please let me know. This is after all for you.

I do apologize for this edition being a bit late but my computer decided it did not wish to cooperate. In the future , computer willing, you will be receiving a prompt and exciting letter.

There is much to share with you in this issue so I will wish you all a beautiful Spring, and again please contact me if you have any comments or questions for me.

Thanks You!

Trish Hillegas
